Job Title: Second Shooter Photographer for Special Events

Company: JE Hedges Photography - www.JEHedges.com - (706) 992-8233

Location: Regional Area

Pay Rate: \$50 per hour. Travel compensation available for locations outside the local area.
No health or dental benefits.

Job Description:

JE Hedges Photography is looking for a talented and reliable Second Shooter Photographer to assist with special events, including corporate functions and private parties. This role offers flexible, variable hours based on your availability, empowering you to showcase your photography skills. You will be given a memory card at each event, which must be returned to us at the event's conclusion. Your primary responsibility is to capture high-quality images using your camera and lighting equipment, shooting in RAW format on the provided memory card. No post-processing or editing is required—just your time and talent behind the lens to deliver professional images.

Responsibilities:

- Second-Shooter Photographer should represent our studio with dignity and respect during events, engage with clients and guests in a friendly, professional manner, and handle challenging conversations with tact and a positive attitude.
- Never promote your photography business or solicit clients for personal gain during events.
- Contribute creative ideas to enhance client experiences and expand our reach.
- Be prompt and reliable, ensuring timely arrival at all events.
- Maintain a professional appearance with proper attire: a solid black shirt or blouse, black slacks or business skirt, and appropriate footwear.

Requirements:

- Strong understanding of photography fundamentals, with the ability to shoot in manual mode when needed or requested, including manipulating ISO, Shutter Speed, Aperture, and White Balance. You must be able to answer basic questions about photography.
- Must own reliable camera equipment, indoor lighting gear, and backup equipment. While there is a preference for Canon DSLR users, all photographers are encouraged to apply.
- We prefer you own and use a standard zoom lens like a 24-105mm f/4L IS USM or a 24-70mm f/2.8. Preference will be given to those who own a 70-200mm f/2.8.
- Must shoot on JE Hedges Photography's memory card in RAW format and return the card immediately after the event.
- Must be highly organized, dependable, and able to multi-task while staying alert to candid photo opportunities and delivering outstanding photographs under any conditions.
- Be physically capable of stooping, bending, lifting, and carrying 50+ pounds.
- Valid driver's license and ability to pass a background check if requested.
- Reliable transportation with insurance and a dependable mobile phone.
- Ability to attend various religious ceremonies and special events, regardless of personal beliefs. The code word for the email subject line is "banana," which is used to ensure that applicants have read and understood the entire job posting.

How to Apply:

- Send an email to Julie@JEHedges.com expressing your interest in the position.
- In the email, include a link to a recent event you photographed from beginning to end, and shot within the past six months. The event must include indoor evening images.
- Provide a list of your equipment, including camera, lens, and lighting.
- The email subject line should read "Photographer Position" + secret code word.
- Upload a minimum of 25 indoor evening event photographs **using a desktop or laptop computer** (usually will not work using a mobile phone) via this link: <https://spaces.hightail.com/uplink/JEHedges>
 - Please note, outdoor photographs do not count towards the 25-photo minimum.
 - Rename your files so they include your last name.

JE Hedges Photography is committed to creating memorable experiences through photography. If you are passionate about capturing the perfect moment and are ready to contribute your skills to our team, we encourage you to apply!
